

**Manitoba  
Runners'  
Association**

June 16, 2008

To whom it may concern,

I first met Christian Clavelle three years ago at the Wal-Mart Walk for Miracles where I was the Event Coordinator and he was in charge of first aid. I was so impressed with him and his professionalism that I had him come back every year since to administer first aid if needed.

As Executive Director of the Manitoba Runners' Association I plan many road races each year. Canadian First Aid Training, which Christian owns, is the only company I would consider to be at our races. He attends so very well prepared, with attendants on bicycles and he travels the race course in a golf cart making sure everyone is safe and making sure that if anyone needs help it is immediately available. His attendants have walkies and can communicate with Christian at all times. Christian and I can communicate with our cell phones during the course of the events.

I have never before felt so comfortable about the safety of our runners as I have since having Canadian First Aid Training at all of our events. I have highly recommended Christian to other race organizers and they have all been totally satisfied.

On a scale of 1 to 10, ten being the highest, I would definitely rate Canadian First Aid Training a 10!

Yours sincerely,

Leni Campbell  
Executive Director  
Manitoba Runners' Association

Event Coordinator  
Wal-Mart Walk for Miracles
